

Anokiwave Is Now
QORVO

Enabling New Capabilities in SATCOM, RADAR, EW, COMMS, NextG, and Space Applications Using the Advances of mmW Silicon Commercial Technologies

Engage with Anokiwave and benefit from:

- **SWaP-C reduction** using highly integrated Silicon IC designs
- **Leveraging existing high volume COTS Silicon ICs**
- **Flexibility** to customize ICs for specific needs
- **Phased IC development** to meet budgetary constraints
- **Feasibility analysis** to understand system level trade-offs
- **ITAR** design capability with a U.S. supply chain

Contact sales@anokiwave.com to discuss your specific needs
